Weekly Progress Report			
Topic:	**Chatbot – Final Project**	Week No.	**12**
Course Code:	**CSST101, CSST102**	Term:	1st Semester
Course Title:	**Advance Representation and Reasoning** **Basic Machine Learning**	Academic Year:	2024-2025

Group Members:

- Reyes, Vanesse V.
- Romero Keayon Ivan V.

Work Completed:

We successfully remove unnecessary data or columns that we think we don't need on training the chatbot to reduce overfitting

Challenges Encountered:

To find a valid column to remove, because we think all of the columns are important

Solutions Implemented:

We find different sources of what is needed information to achieve the prediction move chatbot

Tasks for Next Week:

Begin the initial Model Training.
