Weekly Progress Report			
Topic:	**Chatbot – Final Project**	**Week No.**	**13**
Course Code:	**CSST101, CSST102**	**Term:**	1st Semester
Course Title:	**Advance Representation and Reasoning** **Basic Machine Learning**	**Academic Year:**	2024-2025

Main Tasks Assigned:

Fine-tune model hyperparameters (e.g., learning rate, batch size)
Conduct initial testing on the validation dataset
Record training results and identify potential issues

Work Completed:

We start the initial training of the model, and create a suitable learning rate and batch size base on our model, we also learned that the dataset we chosen are a good fit for our chosen title.

Challenges Encountered:

the correct model, learning rate and batch size.

Solutions Implemented:

Through searching and testing we find the best batch size.

Tasks for Next Week:

improve data preprocessing and training speed.

Instructor's Feedback:
